H. Our primary purpose is to provide opportunities for our primary customer, the business person, to engage in your ministry using their business expertise, entrepreneurship, experience, resources and networks.

Here are some examples of the ways business people have been engaged using their Professional Expertise:

- *Provided logistical, planning and marketing expertise; photography services; landscaping services*

- *Served as a guest interviewer for people re-entering the job market*
- *Spoke to youth groups about their professions*
- *Provided Real Estate consulting*
- *Taught financial literacy classes*

What are some of your ministry's needs that require Professional Expertise that you *would like to have met* between September 2017-April 2018? These would involve engaging the business community, *OTHER THAN serving on your Board, fundraising and providing financial support.*

We would like to include other needs, such as, Volunteer Opportunites and Material Needs. If you were a Partner Ministry at this time, what would you submit as your list of **current** ministry needs?

Partner Ministry applications are due by June 30, 2017 and will be reviewed by our Board of Directors.

We will schedule interviews with Executive Directors/CEOs prior to making any decisions.

Letters of Acceptance will be sent by July 19, 2017
